

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected a complete cure after other treatments have failed. Sufferers who could scarcely hear a watch tick tell how they have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Farnint (Double Strength), about 75c worth. Take this home and add to it 1-4 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

Farnint is used in this way not only to reduce by tonic action the inflammation and swelling in the Auditory Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective. Every person who has catarrh in any form should give this recipe a trial and free themselves from this destructive disease.

URGE MEDICAL INSPECTION IN CITY'S SCHOOLS

Drs. B. Bowell of Laporte and J. W. Milligan of Michigan City Speak at Meeting at High School.

Medical inspection for children in the schools of South Bend was strongly advocated in the addresses by Dr. B. Bowell of Laporte and Dr. J. W. Milligan of Michigan City and in the general discussion of the question by local physicians and educators at the high school last night.

Although no definite action was taken, the necessity of medical inspection and of segregation of backward students in the local schools was presented in such a convincing manner that it is probable that a movement will result that will eventually mean the adopting of the plan here.

Dr. Bowell, who has had considerable experience among the insane and the feeble-minded of state institutions, gave an exhaustive survey of the different classes of the defective, of what is being done for them at the present time, and of the ways of remedying the conditions in this country.

Education is Needed. "It took the examples offered by the Ironsides," said Dr. Bowell, "to enforce safety in public buildings; it required a Titanic disaster to enforce safety in ocean traffic; and it will require a thorough course of education for the public to know of the dangers existing in public health, to bring about a remedy."

"We are appalled by reports of the loss of 25,000 men in war, but we remain unmoved by the loss of thousands every year through diseases which are easily preventable."

"Our army of defectives is many times greater than our United States army, our navy, and all of our students attending schools, colleges and universities. The cost of feeding, clothing and sheltering this army amounts to billions of dollars each year, and this cost is paid by the people."

"Authorities say that the age of criminality is from 16 to 20, so our problem is one of taking proper care of our young people who are not able to care for themselves."

"Criminals are defective. One-half of the criminals arrested in the United States, and nearly all of the prostitutes are either physically or mentally defective. An overwhelming percentage of our inefficient and our school boards are also victims of heredity or environment, suffering from conditions easily remedied, and more easily prevented."

"Crimes are the two greatest foes, alcohol and syphilis, exist because of the cowardice of the state, the church and of society. The church is too busy teaching salvation to those already saved to pay much attention to the young. Our school boards are too busy attending to finances to learn the needs of the developing child. Society is too intoxicated with its own importance to care whether the young are mentally defective or not."

"Medical inspection in the schools, and scientific care of the scholars according to their needs is one sure solution of the problem of inefficiency and degeneracy. The 98 percent of children who are able to advance in their studies should not be retarded by the two percent who are backward, and this great majority should be given their chance by inspecting all, and giving those found to be mentally deficient special instruction in segregated classes."

Dr. Milligan, who led in the discussion following the address, quoted statistics showing that alcohol is the cause of the majority of the prisoners being sent to the state's prison at Michigan City, with which Dr. Milligan is connected. He recommended the passing of laws prohibiting the sale of liquor as one method of decreasing degeneracy.

According to the statement of Supt. L. J. Montgomery, who gave a short talk on local conditions, the consensus of opinion, as expressed by a large number of local physicians and others interested in the question, favors medical inspection here. He stated that the 180 defective children in local schools were a great hindrance to the others, and should be given special consideration.

The meeting was held under the auspices of the St. Joseph County Medical association, Dr. W. L. Owen presiding.

ESSAYS IN NORTH POLE CONTEST MUST BE IN OFFICE BY THURSDAY

The essays which are being written on the subject are due in this office Thursday, Feb. 4. Any received after that date will not be graded.

Be sure to write your name and street address plainly, also the name of the school you attend and your year or grade in the school. This is important, because we want to grade the essays in classes, according to the year or grade of the author.

The essays will be graded and the names of the winners published in The News-Times. One of the grand prize essays will be published in the same paper.

A great deal of interest has been shown in The News-Times essay contest, and the contest department will probably have a great many essays to read and grade on Friday, so be sure that your essay is in on time.

Leave the essays at the office of The News-Times contest department.

TALKS ON CARE OF SKIN
Madame Swartz is Heard by Members of Y. W. C. A.

Madame Swartz gave a very interesting talk on the care of the skin and Miss Grace Steffy sang at the Tuesday evening parlor talk at the Y. W. C. A. Miss Isabelle Kennedy will give a talk next Tuesday.

The Union Trust Company's Christmas Savings Club is now open. Come in and let us tell you all about it.

An Easy Way to Get Fat and be Strong

The trouble with most thin folks who wish to gain weight is that they insist on dragging their stomachs through the mud of greasy foods, robbing on useless "fresh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientific discovery, it is now possible to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This master-stroke of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through its regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to every starved, broken-down cell and tissue of your body. You can readily picture the result when this amazing transformation has taken place and you notice how your cheeks fill out, hollows about your neck, shoulders and best disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Sargol is absolutely harmless, inexpensive, efficient, and all leading druggists of South Bend and vicinity have it and will give you money if you are not satisfied, as per the guarantee found in every package.

Caution—While Sargol has given excellent results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken by those who do not wish to gain ten pounds or more.

TO BOOST SUMMER RESORTS OF STATE

Association Formed at Warsaw Yesterday Wants Laws Agreeable to Sportsmen—Favor Low Fishing License.

Proprietors of summer resorts in northern Indiana met Monday and Tuesday at Warsaw where they organized the Summer Hotel and Pleasure Resort Association of Northern Indiana. There were 35 present at the meetings at which much enthusiasm was shown in regard to the work of bringing Indiana lakes and resorts more to the attention of Indiana people.

The following officers were elected for the new association: President, C. A. Davis, Colonial hotel, Lake Manitowish; vice president, G. A. Shorb, Lakeview hotel, Culver; secretary and treasurer, V. C. Smith, Hudson hotel, Hudson.

The object of the organizers of the association is to prove to the people of the state that no better resorts can be found anywhere than in Indiana and also to work in favor of such legislation as will aid in making the state agreeable to sportsmen. At the present time the association is particularly interested in a bill to be introduced by Sen. Ballau of LaGrange, which provides that fishermen may take out a permit for one day at a cost of 10 cents.

The association is also pledged to work against another bill to be introduced by Sen. Ballau by which it is proposed to make a closed season for fishing. The resort men maintain that game fish can better be conserved through the efforts of the public and that a closed season results in ill feeling which in turn results in indiscriminate fishing by farmers and other living near the fishing grounds.

Good roads also came in for their share of debate at the meeting of the association the opinion being that good roads were one of the best assets of the summer resort men. It was planned that in the spring there would be started a campaign of education to cause the enforcement of the fish and game laws and to bring people to a realization of the value of the lakes.

WANT MISHAWAKA AVENUE IMPROVED

Committee Appointed at River Park Civic Meeting to Push Project.

Improvement of Mishawaka av. running through River Park was discussed last night at the regular meeting of the River Park Civic club at the school. The discussion was opened and lead by Adam Hunsberger, a president. J. W. Witwer, to complete the steps leading up to the actual improvement.

Reports of the various committees appointed at the last meeting were given. It was reported that two electric lights had been installed at points in River Park.

Miss Emma Jackson and Miss Ketebe presented a plan for organizing a dramatic club at the school and give playlets and light dramas at the civic meetings which was decided in favor of by the patrons present. Under the direction of Miss Jackson and Miss Ketebe work along this line will start in the near future. Milton Griffith lead in a number of old songs which were sung by the people present. Prof. Griffith will attend to the future of the school and possibly will organize an

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and dising of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

CITE CALVERT GUARDIAN IN WILL PROBATE CASE

William Calvert, guardian of the minor heirs of Joseph E. Calvert, has been cited to appear in the circuit court to show cause why the will of Mary Jane Calvert should not be probated. It appears from the petition of C. P. Ducomb that the will transfers property from Mary Calvert to Joseph her son, and that his death makes his children heirs to the property. It would appear also that the interests of the guardian are adverse to the interests of the children.

HOT TEA BREAKS A COLD—TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable.

REVENUE COLLECTIONS IN JANUARY \$16,688.50

Collections made during the month of January by J. P. Butler, revenue collector, totaled \$16,688.50 in addition to the special license fees of \$2,794.33.

Barber Students Held

INDIANAPOLIS, Feb. 2.—The police today were holding Jesse Gains, 18 years old, of Jewett, Ill., and Duff Bryant, 22, of Prairieville, Ind., on a complaint made by a young girl who charged they lured her to a rooming house, and mistreated her after threatening her with a razor. The boys are students at a local barber college.
